I'm sorry, but this game is incomprehensible garbage. The "instructions" are unhelpful, and the messaging to the player throughout is unsatisfactory (e.g. if you have a budget deficit it won't allow you to press "play" on time passing but also doesn't warn you about this, simply changing your screen to the economy screen with no warning or explanation whatsoever). Then almost no matter what you do in the opening turns, the game ends with failure.

This is not fun, intelligent, or interesting. And I say that as a political sciences student and avid fan of political strategy games. Avoid this game like the plague. It's literally the worst game I've played on Steam.. It's not the fmv-game, just a boring movie.. why i cant play multiplayer??. tl:dr **DO NOT PUT ANY MONEY INTO THIS GAME AND JUST PLAY IT FOR FREE, FALSE ADVERTISING ON CARDS, SIDE STEPPING STEAM TAXES BY LINKING TO A PERSONAL ARTIST ACCOUNT PATREON SUBSCRIPTION**

**DO NOT BUY DLC FOR THIS GAME**

**DO NOT BUY CARDS FOR THIS GAME UNTIL BOOSTERS ARE FREED FROM THIS HOSTAGE SITUATION**

The Steam DLC doesn't count towards booster unlock.

In game only to unlock, no in game shop, only in game purchase option goes to a patreon and all discussions end with "just buy off the market" or they'll even say, "gems", but once again, this is ignoring the very glaring problem of not being able to get the booster unlock.

The discussion page even has a sticky post that says cards are coming...half a year ago with a nVt = no text. Clearly, people have booster capability and the devolper is ignoring questions on how others may also obtain it.

Not being able to unlock booster while others obviously have seals the deal, I know a racket when I see one, but just when you thought broken and discontinued items on steam were bad enough, this is clearly misadvertised as having "trading cards" when the low amount and high prices for the cards AND BOOSTERS clearly screams some of somebodies buddies were given the feature so they can sell the cards while others weren't. At a ransom price for cards in general. ...30 cents for one reg card.

Is this a f2p that I can spend 40 dollars with my steam wallet or a hostage situation?

I'm going to look around for someone to make this right, but for all intents and purposes, **DO NOT BUY DLC IF YOU'RE LOOKING TO UNLOCK BOOSTER, SOMETHING IS TERRIBLY WRONG HERE AND IT STINKS.**

What the actual F

Does Gabe know you're side stepping steam sales and are technically mislabeling your product?. i like this game and all but one thing that dissappointed me was i kept getting stuck on small things like bridges and moving platforms which wasn't fun. Other than that it's a good game. Wrote a review on 8-Bit armies which pretty much 'reviews' all three games.

I love the whole serie of turbo pug!. Game attempts to be Populus more or less, but with an easier entrance point. The rate of acquiring wheat, the main resource is shown by each field, not overall, and little things missing like that add up to undermine gameplay. Using a unit to do anything kills it, with good measure cause you never seem to want population, but it makes gameplay tedious, and god games usually have some elements of tedium but this game it is the bread and butter, all micro. It would be forgivable if it was fun, but sending your minions to their doom doesn't even give you the satisfying pop noise lemmings did, nor does the game challenge you to master it's minusia. Once I got to the level that wanted me to mine through the world I found the few camera controls massively insufficient. This game just doesn't leave much satisfaction, but is happy to eat up your time without good reason. Seems like the game just needed polish to make it more smooth and enjoyable, but what currently exists is just rather bland.. This is a game I only play occasionally when I want to relax and I'm not in the mood for playing anything else. That's not a bad thing, that's just the role it has for me and it serves it extremely well. It's a 2D side scrolling puzzle platformer. There's no direct combat (though you can be killed), the game is more about block puzzles, figuring out what you need to move, where and the correct timing. It's pretty simple at first but after a few sets of levels, things get a little more challenging with puzzles really requiring players to know the ins and outs of mechanics, sometimes forcing the player to learn new things as they come up with a solution.

Each puzzle is satisfying and so far, not frustrating in the slightest. The visuals are really charming and the music is just nice and relaxing, it doesn't make you feel at all rushed.

I think my favourite thing about it is the game just doesn't get boring for me and it fits into my life perfectly, being there for whenever I need it without feeling like I'm forgetting anything. If I'm stuck for something to play or just not having a great week, I can put this on and even though it doesn't solve those problems, it's a nice way to spend some time.

I highly recommend picking this game up. It's not very expensive at full price and is worth every penny.. I really enjoyed this DLC... especially with the new addition of the TREASURE RADAR. Made finding all the treasure (EXCEPT GOLD COINS) a lot easier. I still wish there were a tool to help find the coins... has to be most difficult and annoying part of the game. But the game itself is beautiful and surprisingly fun. I bought this DLC on sale and it was appropriately priced for under \$3. The two new levels were beautiful - but don't offer too much more in the way of actual missions. All in all this is a different and creative game. A nice break from the rest of the FPS genre.

. Jet Gunner plays similar to Contra. You can only shoot left or right and you get a jetpack, hence the name. There isn't much to say about this game other than that. Get it if you like Contra or NES games in general.. Really great game that isn't turns based. PVP or story based play.

Kind of bummed about the microtransaction aspect part of this.

It would be great if you could trade your minions for gems.

However, the game combines a lot of great aspects to keep you coming back.. Game seems fun but crashes everytime combat starts. Not really possible to play at that point so I guess it goes in the refund bin
