Just waiting for more mysterious adventure bc I loved it. <3. This is a hidden object game not an adventure one. And this is to warn all those who like me who love adventure games but hate the hidden objects screens. These force you to find objects which has nothing to do with the story of the game and hinder its progress. I wish the developers removed those screens so that it would make a good adventure game.. Cool concept, terrible level design. I originally bought this, because it reminded me of the "Maria-sama ga Miteru" anime and I have always wanted more of that. Well, more of seasons 1 and 2, but that's not what this review is about. The point is that I was not only satisfied with Flowers, but quite impressed by how quickly I grew to like the characters, got invested in their stories and then realized hours had passed that felt like mere moments. It is a wonderful experience and scratches that itch for heart-warming, PG lesbian catholic schoolgirls.

My only problem with this game was one plot point that made no sense to me, but that's resolved quickly and not a big issue. Everything else about this game was fantastic. I love the art, music, writing, story development and pacing. Even the characters whose archetypes aren't usually to my taste were well done and I genuinely liked every single character. That said, Yaegaki and Yuzuriha are obviously the best. To refer back to Mari-Mite, Yuzuriha is most like best girl Sei Saito.

In short, I laughed, cried, cared, was confused and enjoyed all of it. Definitely going to keep following the series and looking forward to getting Summer, where the main character switches to Yaegaki and I'm very excited to be the funny mean girl with a cats smile.. Inspired setting with heartwarming graphics, as mentioned by other reviews, feels like great (and rare) cinematic platformers such as Another World, beautifully handcrafted animations both in-game and in cutscenes.

Playing is a lovely experience. as good as always only thing i am said about all the money we put into the game was lost after it was taken out from kongregate but at all it is so much better now :). If you like microbiology, Spore aquatic stage, Psp's Flow and looking through a microscope to see those little things struggling, get this game.

It has a very relaxing ost too.

Game's great. (It's old and a bit ♥♥♥♥♥ but I love it) THE THING THAT PISSES ME IS THE RESOLUTION
GODDAMNIT!!!! WHY IS IT LIMITED TO THIS TINY SH***Y SQUARE!!!! VIDEOS OF THE GAME ON YOUTUBE
ARE IN 16:9!!!!. stupidly priced for how old it is

. mesmerizing

i set up 3 point loop, and a 4 point loop then a few 2 point lines and a 5 point line... then i take the headset off, keep the
headphones on and place the HMD somewhere in the room... occasionally, I move the HMD to a new spot to slightly change the
music.. Spelunky Souls. Pretty damn good, enjoying it so far.. + Awesome Camera angles in intro

+ Nice attempts on scaring the player

+ Fun levels

- Crashed 8/10 times when starting or playing

- Slow movement, feels awkward

- Extremely long and boring introtxt

This is how I imagine dreams to be like.
